

# dharma dog karma cat®

- Handcrafted in Nepal
- 100% all natural wool
- Safe, eco-friendly dyes

Our pets teach us the most important thing we know, compassion. They give it to us freely and in abundance. In return, we take care of them as best we can. The wools used in dharma dog karma cat® beds are cleansed without chemicals and retain the warmth and scent of lanolin that your pet can't resist. We use only safe, non-toxic dyes, and our production minimizes impact on the environment.

Your bed is handmade by women's collectives in Nepal, and your purchase supports these artisans and their families.

**CARE:** The lanolin in the wool keeps your felt bed naturally clean. It can be spot cleaned with a sponge or vacuumed. If it becomes very soiled, turn it inside out, and wash it in the delicate cycle of a washing machine. Do not put it in the dryer! Turn it right side out and while wet, stuff it with newspapers and let dry.

**ADVICE FOR USE:** This product is 100% natural wool, but you should observe your pet's behavior with the toy. If they are tearing apart the bed or ingesting the wool, it is not an appropriate bed for your pet.
